

PRESS RELEASE 09 - ISSUED 7 March 2023

For immediate use

BovINE the European beef innovation network project continues to fuel the drive towards sustainability

Despite its funded period coming to a close on 31 December 2022 after three years, project partners are continuing to ensure that knowledge generated to support Europe’s beef farmers is communicated and disseminated.

Landmark resources, including the *Catalogue of 477 On Farm Practice Abstracts*, are now available to access and download direct from the project website for sending direct to key contacts, as well as re-uploading to all relevant repositories. Other resources directly available on the website are the *Policy Brief*, linking BovINE’s knowledge to relevant strategies and initiatives, the full list of *Grass Roots Needs* as contributed by farmers from nine EU states, as well as direct access to the *Animations* and *Webinars* produced by the project to supplement the Practice Abstracts.

The BovINE Knowledge Hub (BKH) houses all the Practice Abstracts validated and uploaded by partners and the project’s nine Network Managers organised according to the four BovINE themes of Socioeconomic Resilience, Animal Health & Welfare, Environmental Sustainability and Production Efficiency & Meat Quality.

Professor Maeve Henchion, BovINE Project Co-ordinator, comments:

“The knowledge that BovINE has made available in user-friendly formats is based on innovations that have been applied in practice on beef farms across Europe and on solutions from research that have yet to be put into practice.

We’ve tested some of the research innovations on beef farms across Europe so it is now easier for farming communities to adopt them if they suit their own contexts. I and many BovINE colleagues are continuing to promote this validated and user-friendly material throughout 2023 and beyond across Europe.

With a significant amount of material produced in multiple languages backed up by audio-visual content, BovINE knowledge is ready for supporting a wide cross-section of European beef farmers on their road to sustainability.”

Professor Henschon spoke by invitation about BovINE at the **9th International Beef Forum** in Warsaw, Poland in early 2023, attended by the European Commissioner for Agriculture and Rural Development, Janusz Wojciechowski. The meeting was organised by BovINE's Polish partners and Poland's Network Manager, Jerzy Wierzbicki.

A key speaker at the Beef Forum as well as one of the organisers, **Jerzy Wierzbicki** explained that the current and future challenge of delivering sustainability across the beef sector required clear definitions of these terms to ensure that the sector can develop and deliver a consistent and sustainable model. Mr Wierzbicki continued:

“The dissemination of the knowledge available in the BovINE Knowledge Hub can help with the clarification of what sustainability means in practice. It is a veritable treasure trove of knowledge, information, good practices and innovative solutions to regulatory, market and consumer challenges as well as contributing to the development of policy approaches.”

BovINE partners will be presenting during 2023 at national, European, specialist and international meetings addressing both farmers directly and policy players to continue the cascade of BovINE's knowledge embedded in the practice abstracts.

- Check out the BovINE project website www.bovine-eu.net for news from all countries involved, and all 477 Practice Abstracts at the BovINE Knowledge Hub <https://hub.bovine-eu.net/>.

Ends/Notes follow

Notes

1. Further information regarding the project including requests for interviews with the Co-ordinator, Theme Leaders, Project Manager, Network Managers or other project team members, and/or audio-visual content (photos/videos) please contact Rhonda Smith in the UK at bovine@minervacomms.net +44 (0) 1264-400520 +44(0)7887-714957
2. BovINE has a Network Manager (NM) based in each of the 9 member states (Belgium, Estonia, France, Germany, Ireland, Italy, Poland, Portugal & Spain) building networks across their beef farming communities. Contact information for each NM can be found on the BovINE website: <http://www.bovine-eu.net/network-managers/>
3. Click on the flags on the Home Page of the BovINE website to access all translated materials for each of the 9 countries.

4. This project has received funding from the European Union’s Horizon 2020 rural renaissance programme. Project No: 862590 under call H2020-RUR-2019-15. Further information is available at <https://cordis.europa.eu/project/id/862590>

5. BovINE Project Partners

No. *	Participant organisation name	Country	Partner type
1	Teagasc - Agriculture and Food Development Authority Project Coordinator – Prof. Maeve Henchion maeve.henchion@teagasc.ie ; Project Manager – Richard Lynch: richard.lynch@teagasc.ie	Ireland	Applied research/ extension
2	Feirmeoiri Aontuithe na h-Eireann Iontaobiathe Teoranta LBG	Ireland	Farmers association
3	Centro Ricerche Produzioni Animali - C.R.P.A. s.p.a.	Italy	Applied research
4	Unicarve - Associazione Produttori Carni Bovine	Italy	Farmers association
5	Institut de l'Élevage	France	Applied research/advisory
6	Fédération Nationale Bovine	France	Beef farmers association.
7	Universidad de Zaragoza	Spain	Research
8	Instituto Navarro de Tecnologías e Infraestructuras Agroalimentarias SA	Spain	Applied research/advisory
9	Szkola Główna Gospodarstwa Wiejskiego	Poland	Research
10	Polish Beef Association	Poland	Beef farmers association
11	Faculdade de Medicina Veterinária	Portugal	Research
12	ACBM- Associação de Criadores de Bovinos Mertolengos	Portugal	Beef breeders’ association
13	Eigen Vermogen van het Instituut voor Landbouw- en Visserijonderzoek	Belgium	Applied research
14	Boerenbond	Belgium	Farmers association
15	Friedrich Loeffler Institut - Bundesforschungsinstitut für Tiergesundheit	Germany	Research
16	Bundesverband Rind und Schwein e.V	Germany	Farmers association
17	Minerva HCC Ltd	UK	SME – communications
18	NPO Liivimaa Lihaveis	Estonia	Non-Profit Organisation
